TIRED OUT!

At this season nearly every one needs to use some sort of tonic. IRON enters into almost every physician's prescription for those who need building up.

BROWNS
IRON
BITTERS
THE
BEST TONIC.

For Weakness, Lassitude, Lack of Energy, etc., it HAS NO EQUAL, and is the only Iron medicine that is not injurious. It Enriches the Blood, Invigorates the System, and Strengthens the Heart.

It does not blacken or injure the teeth, causes headache or produces constipation—other Iron medicines do.

Dr. G. H. BINKLEY, a leading physician of Springfield, Ohio, says:

Brown's Iron Bitters is a thoroughly good medicine. I use it in my practice, and find its action equals all other forms of iron. In weakness, or a low condition of the system, Brown's Iron Bitters is usually a positive necessity. It is a tonic and a stimulant.

Dr. G. H. BINKLEY, 1193 Thirteenth Street, Georgetown, D. C., says: "Brown's Iron Bitters is the Tonic of the age. Nothing better. It creates appetite, gives strength and improves digestion."

Genuine has above Trade Mark and crossed red lines on wrapper. Take no other. Made only by BROWN CHEMICAL CO., BALTIMORE, MD.

ENGINEERS AND FIREMEN.

STRIKE ON WESTERN AND NORTH-WESTERN ROADS IMMINENT.

The Question is How Far Will it Extend. The Burlington Issues an Order to Mr. Arthur—Grand Chief Wilkinson Investigating—Other Strike Notes.

CHICAGO, March 8.—The Tribune this morning says: A general strike of the Brotherhood of Locomotive Engineers and Firemen on the western and northwestern railroads is imminent. Exactly what roads it will include and how far it will extend should it take place, it was impossible to ascertain last night. The Brotherhood men appear determined to carry out this desperate move, yesterday's developments showing that a tie-up on other roads has in all probability been decided upon, and that the machinery necessary to accomplish this result has been put in motion.

The only question now is how far will the general tie-up extend? This question cannot be answered at the present moment, for the reason that not even the Brotherhood officials themselves know. The convention of local committees to be held this afternoon at McCoy's hotel will settle this question. Since the act of abandoning its engines at the beginning of the strike, the Brotherhood has been waging the fight on the defensive. With the close of the session Monday night of the chairmen of the grievance committees of the several roads it again assumed the aggressive.

Grand Chief Wilkinson was summoned in haste by Chief Arthur yesterday. The cause of this action was due to the following order issued by the Burlington company:

"To CONDUCTORS—As we are now going to open up our business and will discontinue the running of pilots, we expect you, or one of your brakemen, to show the new engineers the road when necessary."

Mr. Wilkinson arrived from Galesburg at 3 o'clock and was at once closeted with Mr. Arthur. As he has formerly stated that no brakeman or conductor belonging to his organization should do piloting, what action he will take is a matter of some moment.

He was approached by a reporter as he came from the conference, and said: "No member of my organization will be allowed to do anything but his legitimate duties. I am now going on the road to see what there is in this report and look over the situation."

Delegation to the convention, which should have opened at McCoy's hotel, but which has been postponed, are slowly coming in, and when the gathering is called to order every road of importance is the west, southwest and northwest will be represented. It is said, moreover, that the Fort Wayne, Panhandle and the Eastern Illinois systems will be represented, and that in case of general tie-up these roads will be included. The delegates already on the ground have been instructed to say nothing, but they appear fully impressed with the gravity of the situation and are free to admit that a crisis is at hand. A large stack of telegraph dispatches were awaiting Chiefs Arthur and Sargent when they arose this morning.

There is a very general belief that important developments in the Burlington strike, within the next twenty-four hours, are inevitable, whether there is to be a general tie-up of all the western roads, or whether one or two of them will be placed under the ban at the start by way of experiment, is known only to those who have charge of affairs.

Unless the chiefs of the Brotherhood have the diplomatic faculty of disguising appearances some strategic move is in the wind.

An unnatural peace and quiet, broken only by the constant arrival of telegrams, pervaded the headquarters at the Grand Pacific yesterday, and a look of serenity was upon the countenance of Chief Arthur. Moreover he was affable—remarkably so, although he stoutly repudiated the suggestion that his good nature was due to anything more than his firm belief that ultimate victory was assured.

Among the dispatches received at headquarters were two announcing that the Wisconsin Central and the Pan-Handle were taking Burlington freight, and a third that the Chicago, Milwaukee & St. Paul were accepting Burlington passenger tickets. According to reports of the action of Monday's conference which are base upon good authority, all three of these roads have placed themselves under the ban of the two organizations concerned in the strike, and the outlook is that they will be tied up before many hours.

General Freight Agent Ripley issued another notice to shippers, to the effect that the road was prepared to accept all through freight, except live stock, for all stations east of the Missouri river on the Burlington and its leased or connecting lines in Iowa, Missouri, Illinois, Wisconsin and Minnesota.

It was reported last night that the Brotherhood engineers of several roads refused to handle cars hauled out of the lumber districts by the Chicago, Burlington & Quincy switching crews. All foreign cars destined to points on other roads are left at Western avenue, from where they are taken away by the various companies. A refusal of this kind is equivalent to a strike. Similar trouble is reported from the stock yards.

Conflicting Reports.

CHICAGO, March 8.—The strikers claim to have advised that the new men, Knights of Labor, have gone out, at Lincoln, Omaha, Creston and Hannibal.

The officers of the company, who are in direct communication with all those points say they have advised from the superintendents up to 2:30 p. m. saying that not a man had quit, and that nothing of the kind was anticipated.

Depew and Vanderbilt.

ROCHESTER, N. Y., March 8.—Chauncey M. Depew, Cornelius Vanderbilt and other New York Central officials passed through here at midnight on route to Chicago. It is understood that their object is to settle the Chicago, Burlington & Quincy strike.

Won't Advance Wages.

LAWRENCE, Mass., March 8.—The mill officials of this city who were recently requested by the Knights of Labor to grant a general advance in the wages of the operatives, have refused to do so.

AN EDITORIAL SCRAP.

A Lively Scrimmage in a New Jersey Newspaper Office.

RED BANK, N. J., March 8.—Norman W. Penfield, the editor of the Standard, is only about five feet tall. He is the smallest editor in the state. Besides editing the Standard he owns half of the Ashbury Park Press. Lawyer Joseph Reilly is tall and powerful. Both men are Democratic politicians. Reilly called yesterday at the Standard of office and demanded the copy of some election ballots, which were being printed for another politician. It was refused him.

After he had disputed with the foreman for some time Editor Penfield's attention was attracted. He and Reilly had not been friends for long time. The lawyer finally smacked the copy from the foreman, it is said, and said he would keep it. The editor remonstrated, and tried to prevent Reilly leaving the office. The latter struck Penfield several times, beating him to the floor. Then he ran for the door.

An apprentice boy rushed to aid his employer and beat the lawyer over the head with a column rule. The editor clutched a huge paper knife and pursued Reilly, who suddenly turned and felled him with a blow in the eye, but the editor was up and at it in an instant. Finally the foreman, to avert a murder, clutched his employer and held him fast until Reilly escaped. The news of the affray spread and Reilly was freely condemned for assaulting such a little fellow. Penfield will have Reilly arrested.

A Bold Robbery at Chicago.

CHICAGO, March 8.—A bold robbery took place at the drug store of C. E. Van Herman, northeast corner of Twenty-sixth and Hanover streets, at 10 o'clock last evening. Three men wearing masks entered the store, while the head clerk, T. S. Arta, stood behind a desk counting up the day's receipts, nearly \$100. The leader presented a revolver, and commanded the clerk to throw up his hands and when he complied, swept the money into his overcoat pocket. William Stalitz, the second clerk, was in the back room. He grabbed an old revolver, which was not loaded, and appeared in the doorway pointing it at the invaders. Before he could say a word a bullet flew past him, and shattered a bottle on a shelf over his head. He fled, calling for the police. The shot awakened Dr. Park, who lives over the drug store, and just as he came running down stairs the thieves entered a carriage and drove furiously away.

Confederate Soldiers Get no Monument.

JACKSON, Miss., March 8.—The Senate bill appropriating \$10,000 for a monument to Confederate soldiers was the special order in the house Tuesday night. Among the decorations for the occasion were many war emblems that had evidently seen service. The tattered flag of the Third Mississippi volunteers, captured by the Ninth Connecticut volunteers, and returned by them at New Orleans February 26, 1885, stood unfurled over the speaker's desk, and just under it was a portrait of Jefferson Davis. Notwithstanding the display made to arouse the enthusiasm of the members, the bill was lost by a vote of 59 to 42.

An Iowa Collision.

MARSHALLTOWN, Iowa, March 8.—A serious collision between a wild freight and a regular freight train, on the Iowa Central railroad, took place early yesterday morning, about two miles north of Hampton. The engineers and firemen of both engines jumped, and were but slightly injured. Two brakeman named Ferguson and Williams were seriously injured, and both will probably die. Both engines and seventeen cars were badly wrecked.

A Money Prize for the Champions.

NEW YORK, March 8.—The Association base ball convention has adjourned. A resolution was passed that the board of directors of the association award a prize of \$1,000 to the club winning the championship in addition to the pennant. Each player in the winning team will also be presented with a badge with his name and record inscribed. The umpires have been regularly scheduled, and their season's work is therefore already mapped out for them.

Tascott Again.

TOLEDO, O., March 8.—A story came from Fort Lincoln, on the Lake Shore, last night, that Tascott, the murderer of Snell, of Chicago, has been living in this vicinity with some fishermen, and that he recently made his escape on the ice bridge to Canada. The engineers and firemen of both engines jumped, and were but slightly injured. Two brakeman named Ferguson and Williams were seriously injured, and both will probably die. Both engines and seventeen cars were badly wrecked.

Unnatural Peace and Quiet, Broken only by the Constant Arrival of Telegrams.

SPRINGFIELD, Mass., March 8.—The Daily Union office is burning. Six or eight persons are reported killed or burned to death. The fire threatens to be a big one.

LATER— Some of the compositors climbed out of the windows and fell headlong to the sidewalk below and were instantly killed. It is believed that upward of a dozen people were suffocated, besides a half dozen were killed by falling from the fifth story. Among the latter was a woman.

It is impossible at present to give a list of the dead and injured.

The Union Office is a Brick Structure five stories high. It had no stairway, being only provided with an elevator, which would not work at the time.

There was great excitement, thousands of people stood in the streets watching the progress of the flames.

Lived One Hundred and Seventeen Years.

PORTLAND, Me., March 8.—Mary Ludkins, a tall, gaunt colored woman one hundred and seventeen years of age, died here last night. She always said she could remember distinctly the visit to this country of the prince who was subsequently William IV, of England, and she claimed to have done his laundry work for him when he was in Quebec. She was a wonderfully well preserved woman, and was very active.

Bernhamer in Prison.

MICHIGAN CITY, Ind., March 8.—Tuesday evening Deputy United States Marshal Chris Stein, of Indianapolis, brought to the penitentiary W. A. F. Bernhamer, the convicted sheet man, who took his incarceration with wonderful fortitude. He will be put to work in the washhouse. He will be known as Convict No. 472. Bernhamer confidently expects a new trial when the United States supreme court hears his case on March 19.

Mrs. Garfield and Mollie Back Home.

NEW YORK, March 8.—The north German steamer *Trave*, having on board Mrs. Garfield and her daughter, arrived this morning. Mrs. Garfield's two sons, Irwin and Abraham, together with John A. Logan, son of Gen. Logan, went down to quarantine at Sandusky, and surrounding cities to meet Mrs. Garfield. They have not yet reached the city. The *Trave* experienced a boisterous voyage.

Disappeared With His Keys.

ST. LOUIS, Mo., March 8.—Charles K. Dickson, treasurer of two street railway companies and a highly connected young man, has mysteriously disappeared from this city. He took all his keys with him. He is a brother-in-law of Julius Walsh, president of the Franklin avenue and of the Northern Central railways. Mr. Walsh is very much surprised and mystified.

Conflicting Reports.

CHICAGO, March 8.—The strikers claim to have advised that the new men, Knights of Labor, have gone out, at Lincoln, Omaha, Creston and Hannibal.

The officers of the company, who are in direct communication with all those points say they have advised from the superintendents up to 2:30 p. m. saying that not a man had quit, and that nothing of the kind was anticipated.

Depew and Vanderbilt.

ROCHESTER, N. Y., March 8.—Chauncey M. Depew, Cornelius Vanderbilt and other New York Central officials passed through here at midnight on route to Chicago. It is understood that their object is to settle the Chicago, Burlington & Quincy strike.

Won't Advance Wages.

LAWRENCE, Mass., March 8.—The mill officials of this city who were recently requested by the Knights of Labor to grant a general advance in the wages of the operatives, have refused to do so.

A Plan of Organization.

Plans have been originated in New York for the organization of Democratic clubs throughout the country, preparatory to a thoroughly united party effort in the approaching Presidential and Congressional campaigns. The object as set forth in a circular received at the BULLETIN office is "to associate together for the best interests of their party and country the young, active and progressive Democrats of the United States."

Some people may consider that the time and expenses of perfecting such clubs will be just that much thrown away but it will not be denied that in union there is strength. No general would think of taking his army to battle without a thorough organization first.

The circular referred to is sent out by the Young Men's Democratic Club of the City of New York, the Young Men's Democratic Club of the City of Brooklyn, the Young Men's Democratic Club of Massachusetts, and the Juneau Club of Milwaukee. They say: "We aim to secure not alone continued party success and continued honest and economical Democratic administration of the Government, but also to secure the actual and early realization of the legislative policy to which the party has been pledged."

Further along they say: "Specific measures to which we desire to see the Democracy absolutely pledged in next year's Presidential and Congressional campaigns are as follows:

"That the General Government shall not use its power of taxation for the benefit of individual or class interests.

"That all raw materials shall be freed from import duties and a general reduction of the tariff effected.

"That the Civil Service Laws which have been enacted shall be maintained, and the course of the Democratic administration of President Cleveland in his interpretation and enforcement of those laws upheld.

"That while protecting corporations in the legitimate exercise of the limited powers granted them as creatures of the State, their combination and consolidation, tending to destroy competition, endanger the rights of individuals, and create the monopolies which are the chief factors in the corruption of our Legislatures and municipal bodies, shall be prohibited by stringent laws.

That the public lands shall be reserved to actual settlers, citizens of the United States, for settlement under the Homestead Laws.

Clubs desiring to affiliate are requested to address R. G. Monroe, Secretary, 21 Park Row, New York.

A MASS meeting will be held at Flemington Saturday to protest against the abolition of Rowan County. They do not want any part of Rowan tacked on to Fleming.

News of Religious Nature.

The Forty Hours Devotion at St. Patrick's Church ended this morning. Father Hickey, of Mill Creek, Father Haley, of Winchester, Father Redmond, of Brooksville, and Father Griefenham, of Augusta, assisted in the services.

There have been twenty-five conversations at Rev. Joe Jones' meeting in M. E. Church, South, of Millersburg.

"Rev. Joe Jones is preaching to crowded houses in Millersburg, calling people "persimmon headed idiots," threatening to box the jaws of others, and causing whole families to leave the church in a body, by his personal remarks," says a writer. Others keep the house crowded, though.—Paris Kentuckian.

Rev. Russell Cecil left for Winchester this morning to assist Rev. J. S. Chisholm in a meeting. There will be no preaching in the Central Presbyterian Church Sunday.

Big Sleeves.

[Philadelphia Times.]

Big sleeves, which came into fashion again last summer, among other revivals of the Elizabethan era, are in high favor, especially for house dresses, and even for reception and visiting dresses made of soft materials, such as silk and cashmere. They are particularly effective in lace dresses, and many of the belles have had their lace gowns remodeled to introduce this picturesque feature. They are most popular among possessors of slender figures, those otherwise favored preferring on dressy occasions to have no sleeves at all. Very many of the most stylish out-of-door summer dresses will be made with big sleeves, the puffs in some instances divided by ribbon or velvet bands.

MASON COUNTY SCHOOLS.

Notes and Comments by Superintendent Galbraith on the Teachers, Pupils and Buildings.

NO. 54—CEDAR HILL.

Census report, 52; number on roll, 21; average attendance, 14. Eddie Chinn lost no time.

The trustees, G. G. Chinn, Frank Lee and Wm. Ginn have visited. Of the patrons and friends, Miss Jennie Grant, Mrs. Frankie Cooper and Fannie Chinn have visited the school.

The school house is old and weather worn, and the furniture in keeping with it.

Miss Gertrude Owen taught this school. She is a careful and industrious teacher, and uses written work in nearly all her classes. Her classes all did well and she reports excellent success in her school work, good advancement in all classes, closing with this: "I do not think you could find a school where the pupils take more interest than they do here." The discipline and deportment of the pupils was very good indeed.

NO. 46—FARROW'S CREEK.

Census report, 61; number on roll, 37; average attendance, 20. Arthur G. Davis has lost no time.

The trustees, John J. Dickson, James Thomas and Joseph R. Davis have been very attentive on the school.

The house is repaired, painted and fenced, also well supplied with new outbuildings. It looks like "a city set on a hill," so much has been added to it. Indeed on my first visit after this work, looking at this neat house and lot, the stone steps and painted shutters, I more than ever before realized what a good school house adds to the general appearance of a neighborhood. If you doubt this build one and see what an addition it will be, and what an index of culture and school interest it is. It tells its story in unmistakable language to the traveler. This house is well furnished with patent seats.

This school was taught by Miss Amy Goddard, a graduate of Franklin College, Tenn.—a teacher well equipped for her responsible duties. She uses written work in the primary classes and the intermediate readers. She reports good progress, but makes special mention of the classes in geography, intermediate arithmetic and primary grammar. Her classes did very well indeed upon my visit and manifest that interest which brings success.

LAUGHTER.

As leap the crystal waters from the hills, With nodding flowers along the margins cool, To make the summer fresh and beautiful, So laughter runs along our life, and trills The melodies we love, the sweet "good wills" That help the heart to work the golden rule, The wise and good laugh most, and not the fool, Upon the empty heart no joy distills: Laughter is freedom, launch thyself away!

Fly o'er the waves, where gales are fresh and free, For laughter is the noblest self in play, As ripples of a stream that seeks the sea, Or billows breaking into rainbow spray, Thy heart's untrammeled art of melody. —Dwight Williams in Home Journal.

People Who Die Unnecessarily.

Many people die unnecessarily. Few people take proper care of themselves. Healthy people are prone to be careless, and so destroy their health. Youth and health place the individual in a sort of intoxication. The healthy young man is full of life, energy, ambition, hope, enthusiasm. He thinks he can do anything with his vigorous constitution, and he generally does about everything with it. He finds that a night of sound sleep recuperates him, and he imagines that this will always be the case. Instead of husbanding his forces, he wastes them. He is as extravagant with his health as another man may be with his money. He is living on his capital, and not on the returns from his investments.

Men and women ought not to die as young as they do. Our science has taught us that the lower animals attain to a number of years five times as great as the number of years that bring them to maturity, barring, of course, accident and disease. Man reaches maturity at the age of 25. Five times 25 is 125. The natural life of man ought to be 125 years, according to physiological laws. Of course, he must live in a climate that does not offer too great a resistance.—Physician in Boston Herald.

THAT MISSING MINISTER.

The Mystery Surrounding the Disappearance of Rev. J. S. Walker.

The Cincinnati Enquirer gives further particulars of the strange disappearance of Rev. J. S. Walker, of Augusta. It says: "Friday afternoon, January 27th, Rev. J. S. Walker, pastor of the M. E. Church, South, of Augusta, Ky., took passage on the steamer Big Sandy for this city, en route for Cynthiana, Ky., to assist his brother, H. P. Walker, in a protracted meeting at that place. From that day to this no tidings have been received of him, and it is known he did not reach his destination. February came and passed away, and his church was without a pastor. Quarterly meeting came two weeks since, and no pastor. The Presiding Elder, Rev. Southgate, came as was his wont and was surprised to hear of his mysterious disappearance, whereupon several of the leading spirits of his congregation instituted themselves into an investigating committee to ascertain, if possible, his whereabouts.

As yet no trace of the missing man has been found. Letters were written to his brother, H. P. Walker, of Cynthiana, and also to another brother, who resides in Fleming County, Kentucky, but neither of the above named gentlemen knows of his whereabouts. The membership is at a loss to understand the matter. Some insist that he was drowned from the boat, others that he has been foully dealt with, while still others hint at things that so readily come to the fertile brain and lips of confirmed gossips.

It is now an established fact that Mr. Walker is missing, and his whereabouts still remain a mystery to his friends and relatives. The last seen or heard of Mr. Walker was on the Big Sandy, just before reaching this city. He was in conversation with Nicholas Young, of Pendleton County, Ky., a son-in-law of Mr. Harrison Louderback, of Augusta. Both were to take the same train the next day.

Mr. Young stayed on the boat all night, but does not know whether Mr. Walker did or not, but he is positive he was not on the train the following day.

Mr. Walker's brother is now searching for his missing relative, but as yet has struck no clew which would lead to solving the mystery of his whereabouts. Rev. J. S. Walker has a host of friends in Augusta, and has been very regular in his appointments since last September, at which time he first went to the place. It is believed he left the steamer at the landing in this city, but what has become of him is a mystery.

The latest information from Augusta is that the missing minister has been seen in Cincinnati recently. A gentleman of Augusta claims that while in the Queen City not long ago, he saw Mr. Walker on the street, in company with several women. The reverend gentleman and his company were conversing pleasantly, and he did not seem to be in any trouble at all. The Augusta party is positive in this statement, but he may have mistaken some one else for Mr. Walker. If it was really the missing preacher, it only adds to the mystery surrounding the case.

CRISP'S INSINUATIONS

CONCERNING RIOTS IN ROME INCREDULOUSLY RECEIVED.

The French Journals Greatly Magnify the Disaster Causing a Fall in Italian Credits. The Tribuna Sarcastically Retaliates. The Coming Fight—Notes.

PARIS, March 8.—Signor Crisp's insinuation that the riots at Rome were incited by

some generations ago. The government has rid itself of some Socialists whom it arrested upon principle, probably, and many workmen whose homes are in other parts of Italy have left the eternal city.

The serious failures which have ruined some large contractors and crippled several banks were the result of over-done speculations fastened by the real demands for houses by the increasing population. There was an unresisted scramble to build and the sudden panic which followed, resulting in serious, although, it is believed, temporary depreciation of values, should have surprised no one.

The French journals seized the occasion to magnify the disaster and succeeded in causing a serious fall in Italian National credits on the bourse, a circumstance taken advantage of by peninsular investors, who netted snug sums by the reaction.

The French, in the insensate hatred for everything Italian, which they have entertained since that nation's alliance with Germany predict nothing less than bankruptcy for the country and complacently remark that it is no more than could be expected of a land which permits itself to be governed by the wooden-headed Crisp, who has turned his back upon the natural ally of Italy and suffers himself to be led by the nose by Prince Bismarck.

The Tribuna, of Rome, retaliates by saying that those who have invested their money in erecting buildings in the capital have at least the satisfaction of seeing something for the funds which they have expended. They have sold brick and stone structures as the result of their trouble and output and it will not be long before the tenements will be in demand, for although the increase of the city has suffered a check its growth for the last ten years has not been a phantasm, and is a sufficient indication of its continued expanse.

With a sarcasm, cruel, but not unnatural, considering the provocation received, the Tribuna adds that dwellings and other buildings, even if unrented, are a much better return for money spent than are a few holes in the ground, and that financial animadversion comes with a bad grace from a nation which has squandered untold millions upon the Isthmus of Panama, with the achievement of no other result than the establishment of a gigantic negro cemetery as a monument of its folly.

Triumph for Russia.

LONDON, March 8.—The notification of the porte to Prince Ferdinand that his position in Bulgaria is illegal is merely regarded as a triumph for Russia since from the first the czar has endeavored to incite the sultan to such action. Unless it shall transpire that there is in existence an agreement between England and Austria that Turkey shall not be held responsible for her repudiation of Prince Ferdinand's pretensions, Austria will certainly resent this new move and at the same time insist upon a full disclosure of the Russian program before passively permitting Ferdinand to be ousted.

It is true that Austria has herself admitted that Ferdinand's presence in Bulgaria is illegal, but she has not gone so far as to commit herself to his expulsion. All of the Powers, however, are now agreed that Ferdinand has no right to the Bulgarian throne, and Austria's acquiescence in his withdrawal from the country seems inevitable, though it will probably be accompanied by the bluster and "bluff" usual in such cases.

The Kaiser's Condition Critical.

BERLIN, March 8.—The emperor's condition is considered very critical. It is decidedly unsatisfactory to his physicians, who are all present at the palace in attendance awaiting any changes. Prince William and Bismarck and Count Von Moltke have been hastily summoned, and are at the palace.

The people are alarmed and bulletins announcing the condition of the aged emperor are besieged with crowds anxious to gain every scrap of information which, however, is exceedingly meager. It is supposed that an unfavorable report concerning the crown prince received by the emperor from Dr. Waldemeyer has caused the relapse.

The Sullivan Mitchell Fight.

LONDON, March 8.—The prospects of a meeting between John L. Sullivan and Charles Mitchell grow better day by day, and at present it seems a certainty that they will battle with their fists. The fight is set down for March 9th, which will be Friday. It will probably be decided in France, near Rouen, and possibly on the same spot where Smith and Greenfield fought. Sullivan is said to be in fine condition, and Mitchell is as fit as he can be.

A Startling Rumor.

NEW YORK, March 8.—The Herald's London correspondent cables that a startling rumor is afoot to the effect that the late Duke of Rutland left a son by a secret marriage and that his heir is likely to now come forward and claim the peerage and vast estates which it was supposed would go to the late duke's brother, Lord John Manners.

Consider Peace Imperiled.

LONDON, March 8.—The post considers the peace of Europe seriously imperiled by the porte's action in declaring Prince Ferdinand's position illegal.

A Postoffice Robbed.

LEBANON, O., March 8.—The safe in the postoffice here was blown open by cracksmen and \$1,700 worth of stamps and a small amount of money were taken. Postmaster Lingo discovered the loss at 6 in the morning. No clew to the perpetrators.

Laid Out in the Fifteenth Round.

PHILADELPHIA, March 8.—Two colored middle-weights, Jesse Moulton, known as the "Black Pearl," and Bill Davis, met in an out-of-town resort last night and fought for a purse of \$100 to a finish, under Marquis of Queensberry rules. The affair was witnessed by about forty well known sporting men of this city, and was hotly and evenly contested up to the eighth round, after which the fighting was forced by Moulton, who repeatedly knocked down his opponent until the fifteenth round, when Davis was completely knocked out by a swinging left-hander. Davis failing to respond at the expiration of ten seconds, the fight and purse were awarded to the "Black Pearl." The first knock-down was in the third round, and was credited to Moulton, but Davis drew first blood in the sixth round by a right-hand blow straight from the shoulder.
